What Clients Say

"Angela helped us recognize that cultures exist either by default or by design - and we are choosing to shape ours intentionally."

Future-Proof Your Culture

A strategy to shape organizational health and high performance

There is an invisible force that influences absolutely everything at work - it's called culture. 66% of C-suite leaders say workplace culture is more important to organizational performance than the strategy or operating model*. The truth is, a company's workplace culture is one of its most undervalued assets - and to harness its power, you need a culture strategy.

This power-packed keynote reveals a new solution for shaping human-centered, high-performing workplace cultures where people and teams can flourish - the Organizational Health Operating System™.

Attendees will learn:

- What culture really is and how it can protect your organization from disruptive forces.
- Why the four dimensions of organizational health are necessary for a high-performing culture.
- Which practical culture-shaping tools can be most helpful to create alignment and momentum.
- How everyone across the organization can use their power to shape a healthier culture together.
